Image from Chapter 12 of William Cooper's 1991 book "Behold A Pale Horse"

"The government encouraged the manufacture and importation of firearms for the criminals to be able to use. This is intended to foster a feeling of insecurity and fear in the American people to which would then lead the them to voluntarily give up their arms by slowly allowing their government to pass laws restricting the use of firearms to then over all gun confiscation. Using drugs and hypnosis on mental patients in a process called Orion, the CIA inculcated the desire in these people to open fire on schoolyards and thus inflame the anti-gun lobby. This plan is well under way,

however, there are still many Americans who are fighting back in order to secure their Second Amendment rights."
