MR. E. PEROVICH, Principal

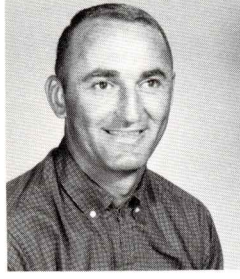

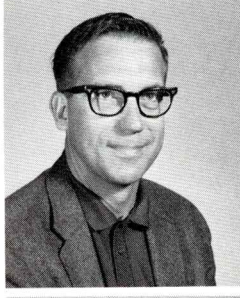

A junior high school is a bridge between elementary and senior high school. It is a point where young people can have a chance to mature before they start to accept their responsibilities as adults. This is the general purpose of Roosevelt Junior High School.

Roosevelt is a large school. It serves over 1,320 students and has approximately seventy rooms. Many courses are offered at Roosevelt to give the student an idea of what is available and what suits him best. It also offers many extra curricular activities such as all sports and special interest clubs.

Quick! Have some problems.

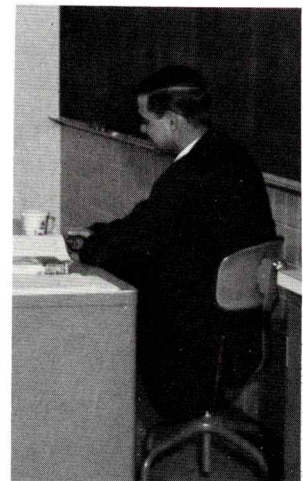

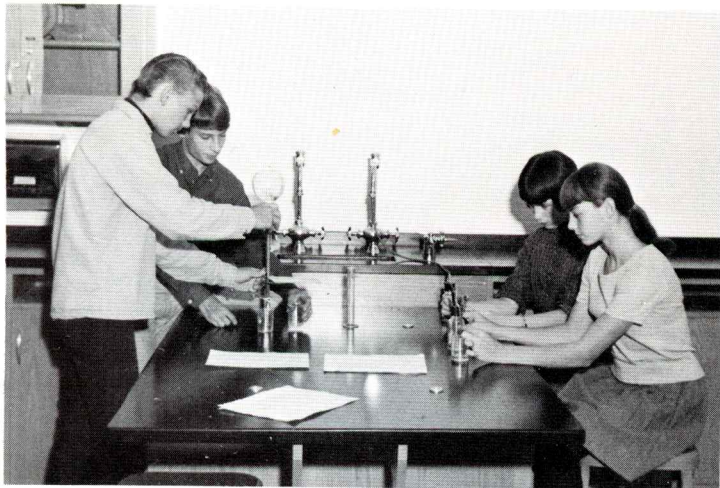

Don't you just love assemblies?

Ah, this is the life.

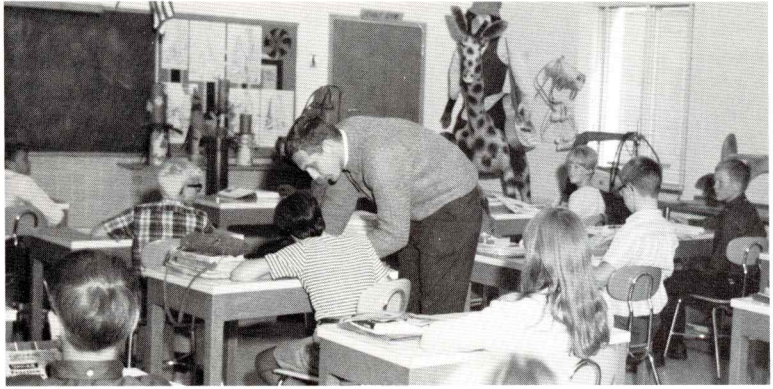

I'll eat it if you will.

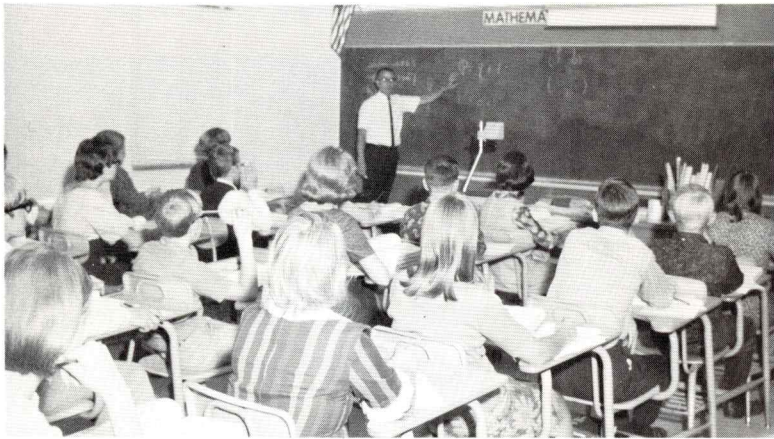

Who's that nut with the camera?

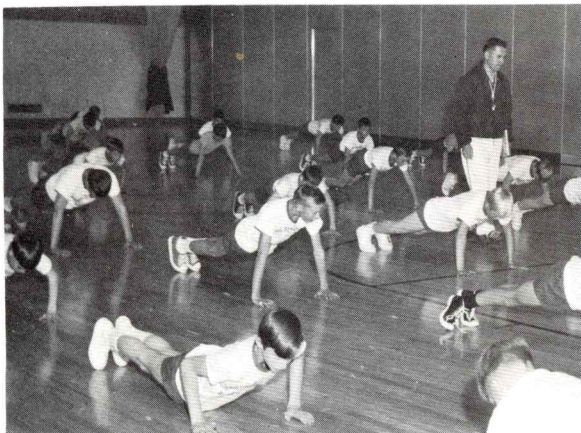

The shape is vaguely familiar, but...

Can you hear me!!

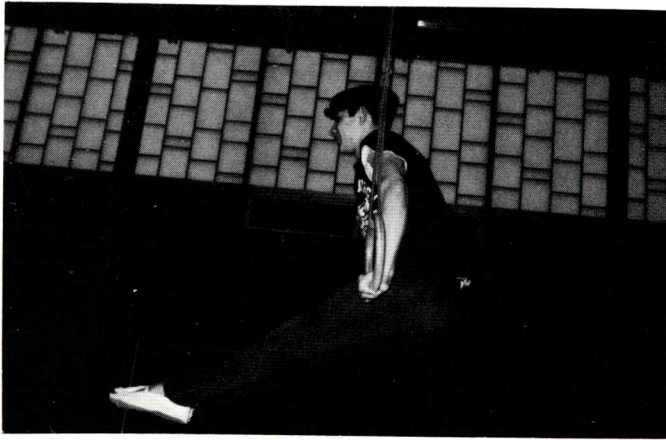

Ah-one and ah-two.

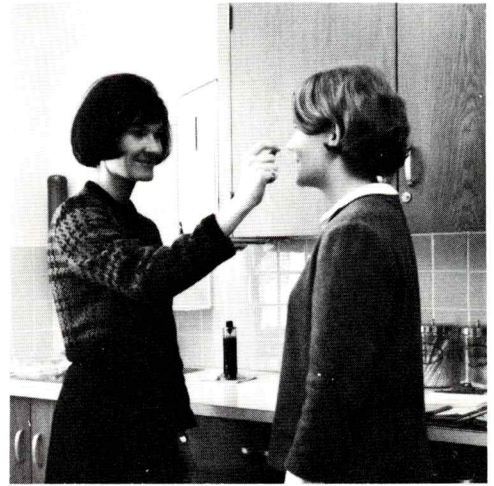

Pick it up! Pick it up!

What is this?!

Ah, I finally made it!

Don't worry, you'll be fine.

Are you still there Agent X?

Attention!
